

**Photon Energy Group** is a group of companies with a shared mission: making clean energy, clean water and clean environments accessible to everyone.

**Photon Energy** and **Lerta** provide comprehensive renewable energy solutions, including solar power and energy flexibility. **Photon Water** offers water treatment and management solutions, and our remediation technology removes contaminants from water and soil.

A publicly traded company operating in over 15 countries across two continents, we combine a global outlook with localised expertise.

Since our founding in 2008, we've expanded to a team of more than 400 employees around the world. And we're committed to fostering a culture of shared values and sense of purpose as we continue to grow. For more information, please visit [photonenergy.com](https://photonenergy.com).

**To take care of our IT systems and provide internal technical support, we are looking for an independent, skilled, and structured colleague:**

## L2 Technical Application and Server Operator

### Key Responsibilities

- ▶ Maintaining and managing Azure servers based on Microsoft Windows for the Aveva SCADA system
- ▶ Monitoring and supporting a server farm consisting of around 30 servers in a 3-tier architecture
- ▶ Troubleshooting and resolving issues related to server performance, networking, and application errors
- ▶ Implementing security protocols and ensuring compliance with industry standards
- ▶ Performing routine system checks and maintenance to ensure optimal performance and reliability
- ▶ Handling database querying and management tasks, ensuring data integrity and accessibility
- ▶ Collaborating with the SCADA system team to ensure seamless data retrieval and processing from Photovoltaic Power Plants
- ▶ Documenting and updating operational procedures and system configurations
- ▶ Participating in disaster recovery planning and execution
- ▶ Providing second-level support and assisting in the training of first-level support staff.

### Qualifications and Experience

- ▶ At least three years of experience in a similar role
- ▶ Proficiency in Azure server maintenance on Microsoft Windows

- ▶ Strong networking skills and understanding of network protocols
- ▶ Experience with database querying and management (SQL knowledge preferred)
- ▶ Familiarity with SCADA systems, preferably Aveva SCADA
- ▶ Good analytical and problem-solving skills
- ▶ Strong documentation and communication skills
- ▶ Ability to work in a team-oriented, collaborative environment
- ▶ Self-motivated and needs little direct supervision.

## **Our Offer**

- ▶ An interesting job at a fast-growing global organisation in the promising fields of renewable energy, environmental remediation and clean water technology
- ▶ Company culture built on trust and diversity
- ▶ Remuneration reflective of individual experience and skills
- ▶ Indefinite full-time employment contract
- ▶ Flexible working hours and occasional home office with manager's approval
- ▶ Teambuilding and corporate events
- ▶ Support for ongoing professional growth through tailored training sessions, courses, and more
- ▶ 25 days of vacation, 3 sick days, 1 CSR day (a working day dedicated to a non-profit organisation aligned with the Group's mission and values)
- ▶ Meal allowance lump sum
- ▶ Multisport card allowance
- ▶ Laptop and mobile phone
- ▶ Participation in an Employee Share Purchase Program after the first year of employment (company shares to a personal brokerage account as a bonus to your monthly salary)

If you are interested in the position and fulfil the above requirements, please send a CV in English to [careers@photonenergy.com](mailto:careers@photonenergy.com).
