

Photon Energy Group is a group of companies with a shared mission: making clean energy, clean water and clean environments accessible to everyone.

**Photon Energy** provides comprehensive solutions that support the generation of clean energy and the integration of renewables into the electrical grid. **Photon Water** offers water treatment and management solutions, and **Photon Remediation** deploys advanced technology to remove contamination from all environments.

A publicly traded company operating in over 15 countries across two continents, we combine a global outlook with localised expertise.

Since our founding in 2008, we've expanded to a team of more than 400 employees around the world. And we're committed to fostering a culture of shared values and sense of purpose as we continue to grow.

## Service Technician

We are seeking a skilled and proactive Service Technician who will join our **Operations and Maintenance** team. In this role, you will be responsible for all preventive and reactive maintenance measures to ensure the smooth operation of photovoltaic power plants.

### Key Responsibilities

- ▶ Inspecting and maintaining photovoltaic power plants to keep them running smoothly
- ▶ Troubleshooting and resolving technical issues promptly, ensuring smooth and uninterrupted operations of the plants
- ▶ Preparing protocols and reports for the Technical Manager, providing clear insights on ongoing projects
- ▶ Monitoring the performance of equipment on photovoltaic farms, identifying opportunities for improvement and ensuring long-term functionality
- ▶ Upholding the highest standards of health and safety, complying with Polish regulations
- ▶ Collaborating with subcontractors and suppliers, ensuring timely and quality execution of work
- ▶ Communicating effectively with clients, offering solutions to improve relationships and satisfaction

### Qualifications and Experience

- ▶ Electrotechnical education
- ▶ At least 2 years of experience as an electrician or service technician

- ▶ Polish language at a native speaker level and English at an intermediate level (for writing e-mails, preparing reports)
- ▶ SEP qualification (E+D up to 30kV) is an advantage
- ▶ Experience working on a solar power plant or wind farm is preferred
- ▶ Active driver and willingness to travel to our customers
- ▶ User proficiency of MS Office package
- ▶ Strong organisational skills and sense of ownership – you will schedule your own activities
- ▶ Willing to occasionally be on call during weekends or holidays (based on a pre-arranged schedule) to ensure the plant operates smoothly

## **Our Offer**

- ▶ An interesting job at a fast-growing global organisation in the promising fields of renewable energy, environmental remediation and clean water technology
- ▶ Indefinite full-time employment contract
- ▶ 20 / 26 days of vacation (based on age), 1 CSR day (a working day dedicated to a non-profit organisation aligned with the Group's mission and values)
- ▶ Medicovert SPORT allowance
- ▶ Medical package allowance and Meal allowance (Edenred card, 300 PLN / month)
- ▶ Team-building and corporate events
- ▶ Company car, laptop and mobile phone

If you are interested in the position and fulfil the above requirements, please apply online or send your CV to [careers@photonenergy.com](mailto:careers@photonenergy.com).
